Dear Wyoming Drug Court Practitioners,

The Wyoming Drug Court Association Executive Committee encourages you to join other practitioners from across the region to collaborate on your work in drug court programs. *A membership application is included below.*

Individual membership benefits include:

Newsletter * Training Discounts * Networking Opportunities * Member only forums on WDCA website * Input on Issues Affecting Drug Courts

The Executive Committee is committed to promoting professionalism, strengthening networking efficiency and capability, sponsoring training, and creating opportunities to explore issues, provide input and create change where it is needed.

In Fiscal Year 2007 and 2008, many important issues arose in Drug Court Panel, Drug Court Steering Committee, and Mental Health and Substance Abuse Division discussions: Standardization of programs, data collection, case management system, funding, and clarifications to statutory language.

To successfully provide coordinated participation and feedback in state level discussions, the Association will need input, experience, and expertise from all of the disciplines collaborating in drug courts.

Together, we will have greater power to continue the successes and address the challenges for the benefit of the criminal justice systems, communities, individuals and families that they rebuild.

We look forward to working with you!
